

BlueJeans Meetings with Dolby Voice

The secure video conferencing platform that makes you more productive

BlueJeans Meetings delivers an unparalleled online meeting and video conferencing experience with crystal clear audio powered by Dolby Voice®. With your everyday collaboration and calendaring tools integrated with BlueJeans, remote workers can easily communicate as if they were meeting in person.

Easily host, join and connect from anywhere, using any device

Start your BlueJeans Meetings with one-touch from any of your favorite devices — iOS, Android, Mac, Windows. Whether you are in the office or on the go, you can instantly host or join meetings seamlessly — through our fast and intuitive desktop or mobile app, or download-free through your web browser.

Boost team collaboration and productivity with embedded tools and workflow integrations

Engage participants in an inclusive online meeting experience with content sharing, participant reactions, whiteboarding and chat. Record video meetings and share them for the convenience of on-demand viewers. Integrate BlueJeans Meetings with workflow applications you're already using, including integrations with Google, Microsoft, Slack and Facebook to ensure effective collaboration.

An online meeting that feels as natural as meeting face-to-face

Experience interactive HD-quality video meetings that make you feel like you're meeting in person, even if you're connecting from thousands of miles away. BlueJeans Meetings helps you build meaningful connections through engaging your participants with features like spotlight, local time display and video tile interactions.

KEY FEATURES

One-click scheduling

With one-click, add a meeting to any Google or Microsoft Outlook calendar invite with no pin codes, conference IDs, or passwords.

Meet on any device

Host or join meetings on-the-go wherever you are on whatever device works best. There's no travel time or costs so you can be more efficient and keep your projects on budget.

User-friendly integrations

Improve workflow by bringing online meetings to Microsoft Teams, Slack, Workplace by Facebook, and more.

Download-free meetings

Join via any browser, allowing easy meeting participation by customers, partners, and other external parties.

Command center analytics

Visualize real-time and historical in-meeting activity data and provide helpdesk personnel, IT staff, and senior leadership the service intelligence they need to measure ROI, identify and solve problems, and make informed decisions.

256-AES Bit Encryption

All video, audio, and content in transit is encrypted by the BlueJeans app and browser using AES-256 GCM encryption.

Consistent and unified experience

Users enjoy a simple interactive experience that is seamless across browsers, mobile devices, operating systems and conference room systems.

Meeting assist

Take advantage of expert assistance from a BlueJeans certified support representative. Ensure your important video conferencing meetings happen without a hitch.

Cloud recording and streaming

Record your BlueJeans Meetings and easily share recorded video calls that can be replayed at viewer's convenience.

Waiting Room

Moderators can control who can join their meetings, or not and when. Keep your meetings secure and avoid unexpected guests by enabling waiting room feature.

Collab Board

Bring your team's ideas, thoughts, and content together with simultaneous co-creation for up to 25 users on BlueJeans Collab Board. Pick up right where you left off, whenever, wherever.

Dolby Voice & HD Video

Award-winning multimedia experience ensures unmatched audio and visual clarity to block out distractions.

Smart Meetings

Capture the best parts from your meetings as highlights, assign tasks and share with your team.

Breakout Sessions

Split your meeting into smaller focused groups for interactive discussions. Allow meeting participants the opportunity to join a session of their choice.

Content Sharing

Facilitate interactive meetings by sharing your entire screen, specific applications or videos.

Enhanced Gallery View

Display up to 25 meeting attendees on the screen at once for a more collaborative experience.

Virtual Backgrounds

Refresh your meeting space with custom virtual backgrounds or simply blur your surroundings.

Automated Closed Captioning

Ensure the ability to actively participate in meetings with automatic, real-time closed captioning that's as easy as flipping a switch.

Simultaneous Interpretation

Deliver simultaneous and/or relay interpretation for attendees in up to 5 concurrent channels. Interpreters have the flexibility to set their incoming and outgoing languages, along with volume and audio mix.
