

# BlueJeans Rooms-as-a-Service featuring Poly Studio X Series

Exceptional conference room systems, now available as an all-inclusive package.

Best-in-class hardware and software, deliver an amazing audio and video experience for every meeting room in your office.

## Breathtaking simplicity delivered in a singular package

BlueJeans Rooms' one-touch join, calendar integration, and elegant user interface are coupled with Poly Studio X Series video bars to deliver immersive audio and intelligent video that redefine the meeting room experience.

## As-a-Service model simplifies your Rooms deployment

We are now offering BlueJeans Rooms-as-a-Service featuring Poly Studio X Series video bars to help you easily equip your meeting rooms with our best-in-class room solution. This offering is designed to be:

- **Flexible at an Affordable Cost** Have the freedom to deploy as many BlueJeans Rooms as you need.
- **Easy-to-Buy** Leverage a subscription model to eliminate the hassle of making large capital expenditures. Procurement and approval process becomes easier and faster.
- **Simple to Scale** Proactively manage room deployment, scaling up and down with minimum hassle.
- **All Inclusive and Predictable** Take advantage of a fixed monthly cost that includes service, warranty, hardware, support and management tools with no additional costs or hidden fees.

- **Single Vendor** Experience the ease of having BlueJeans as your sole vendor responsible for sales, distribution and support, ensuring a unified approach from the first call, throughout the lifetime of the relationship.
- **Peace of Mind, Guaranteed** Remove the administrative overhead that typically comes with maintaining hardware, firmware and software by providing advanced hardware replacement and firmware and software updates free of charge.

## KEY FEATURES

### BlueJeans Rooms featuring Poly Studio X Series

- Solution components include Poly Studio X30, X50, or X70 and TC8 touch interface — no PC, NUC, or additional tablet required.
- Flexible options to outfit rooms depending on room requirements — Studio X30 for small spaces and huddle rooms, X50 for medium-size conference rooms, and X70 for boardrooms.
- Features Poly's proprietary Noise Block AI. Blocks out unwanted noise so that your colleagues can hear what matters most.
- Poly's proven Acoustic Fencing is perfect for larger rooms. Set the range of audio you want the microphone to pick up.
- Built-in camera tracking on both the Studio X30 and X50 make sure you are always focused on who's speaking.
- BlueJeans Rooms delivers one-touch meeting join and seamless calendar integration.
- BlueJeans Command Center provides real-time room analytics and centralized room management.

- Automatic software updates to remove PC management headaches.
- Complete hardware and software integration to yield a standardized platform and consistent user experience.

### Peace of mind from built-in maintenance and support

- Premier warranty and forward replacement eliminate maintenance hassles.
- OpEx usage model provides financial flexibility.
- Equipment refresh keeps you updated with the latest technology.
- Subscription model offers flexibility from hardware lock-in.
