

The BlueJeans Partnership with Dolby

Elevating the meeting experience to exceptional

The modern workforce is driving organizations to adapt to new approaches for communication and collaboration in support of a dynamic work culture that prefers simplicity and flexibility. BlueJeans has developed a strategic partnership with Dolby to provide their world-class audio capabilities and award-winning hardware solutions to organizations that demand their workforce have access to tools that allow them to conduct the best meetings possible.

BlueJeans with Dolby Voice

BlueJeans with Dolby Voice is a breakthrough in audio for online meetings, allowing attendees to hear clearly and communicate naturally, regardless of their location.

BlueJeans Rooms featuring Dolby Voice Room

This premier, converged meeting room solution includes purpose-built, Dolby-designed hardware that is married seamlessly with BlueJeans' visionary meeting room experience.

BlueJeans Rooms featuring Dolby Conference Phone

By pairing BlueJeans Rooms with the Dolby Conference Phone, organizations can deliver crystal-clear audio, one-touch join simplicity, and zero clutter to every conference room.

“Dolby Voice combined with BlueJeans creates meeting experiences that are free from audio distractions and stimulate better participation and conference flow, closely resembling the dynamics and productivity of face-to-face meetings.”

– ANDREW BORDER
VICE PRESIDENT, COMMUNICATIONS BUSINESS
GROUP, DOLBY LABORATORIES

“We have put the BlueJeans Rooms featuring Dolby Conference Phone into 50 conference rooms, and my end users are thrilled by the experience that was made possible by this partnership.”

– STANISLAV BURDEYNYY
IT OPERATIONS MANAGER, MIXPANEL
