

## Video Meetings for HR Professionals

Enhance candidate experience and shorten recruitment cycles with simple video calling from any device.

### User Scenarios

#### **Talent Acquisition**

Vet candidates, establish culture match, and hire quickly with no-fail video interviews.

#### **Expedite recruitment cycles**

Speed candidate screening and evaluation using all-in-one video, audio, and web conferencing.

#### **Flexible candidate review**

Schedule one-click interviews and join from any smart device, browser or phone.

#### **Team meetings and training**

Easily schedule and livestream interactive training sessions that accommodate up to 15,000 people.

“BlueJeans has revolutionized how we do our search committees now. Scheduling is a breeze! The virtual interview is much less awkward than a telephone interview as you can see the people you are talking to and easily pick up on important visual communication.”

– TOM CASWELL, DIRECTOR OF PUBLIC SERVICES, UNIVERSITY OF NORTH FLORIDA

## Features

### One platform

All-in-one HD video, audio, and web conferencing with no download required.

### Fast to join

One-touch, 5 second join time from any room system, laptop or mobile device with no dial-in numbers or passcodes.

### Useful integrations

Sync with commonly used messaging applications, calendar systems, and productivity tools.

### Nothing to install

Full 2-way video interviews via major browsers including Chrome, Firefox, Safari, and more.

### Large scale event control

Host controls for Q&A, polling, muting, and presenter management during trainings, all-hands or webinars.

### Room compatibility

Take advantage of existing room systems across your office.

### Meeting recording

Record any interview, training or meeting and save it for easy playback and sharing.

### Content sharing

Enhance the candidate experience with leading edge screen share and whiteboarding capabilities.

### Unparalleled sound

Stay focused on the conversation with background noise reduction and crystal-clear Dolby Voice audio.

### Enterprise grade security

Protect every video call and safeguard sensitive employee data.

## Key Benefits

### Touch-to-join simplicity

Minimize confusion and quickly start interviews with one-click. No downloads required for candidates.

### Expand talent pool

Meet candidates regardless of location or device for highly productive, face to face conversations.

### Attendee convenience

Maximize interview attendance using mobile app (iOS, Android), browsers, PC apps, room systems, and phone dial-in.

### Streamline hiring processes

Read body language, quickly assess culture fit, and reduce cost per hire for new team members.

### Reduce travel costs

Cut candidate travel expenses and maximize productivity by meeting via live video calls.

### Strengthen culture

Build company culture and improve employee engagement.
