

# BlueJeans Rooms featuring Dolby Voice Huddle

The simplest and smartest video conference solution optimized for your private offices, home offices and huddle spaces.

BlueJeans Rooms featuring the Dolby Voice Huddle is an all-in-one hardware solution that packs industry-leading technology into a tiny footprint. With only two components — the Huddle and the Huddle touch panel — the solution offers ultimate flexibility for small rooms. This compact setup fits cleanly alongside a TV or monitor to deliver a professional conference room experience in personal offices, home offices and meeting spaces.

## Dynamic video

Dolby's 4K camera offers a 110° wide-angle lens for tight spaces. The In-room whiteboard sharing mode lets you collaborate effectively when meeting in person is not an option.

## Immersive audio

Intelligent Acoustics™ constantly calibrates audio for your space, whether you use your TV speakers or a sound bar. 3D audio captures and maps voices in a way that emulates meeting in person. Dynamic leveling provides an immersive audio experience by distinguishing voices from noise.

## Simple to setup and manage

Dolby Voice Huddle can be set up in minutes and managed with BlueJeans Command Center. Simplify deployment across multiple personal and home offices and create efficiency with bulk provisioning, remote device monitoring, and real-time diagnostics.

## Low-risk subscription offer

BlueJeans Rooms-as-a-Service featuring Dolby Voice Huddle is an all-inclusive software and hardware subscription that simplifies procurement and mitigates the risk of future uncertainty.

## KEY FEATURES

### 3D Audio

Noise suppression, echo cancellation, and voice separation for immersive, natural sounding meetings.

### Intelligent Acoustics™

Huddle consistently calibrates and optimizes the audio for your space, whether using your TV speakers or a sound bar for output.

### Dynamic Leveling

Boosts quiet voices while distinguishing speech from noise to make all voices clear and easily heard.

### HD Video

4K 110° wide-angle camera enabled with HDR video mapping enables people to be front and center even in tight spaces.

### One-Touch Meeting Join

Initiate, join and manage meetings with one-touch calendar integration. Minimize time trying to make conferencing equipment work.

### Wired and Wireless Screen Sharing

Share screen content during video meetings wirelessly or use the HDMI input on the Dolby Huddle for a hardwire connection.

### MultiService

Dolby Voice Huddle supports BlueJeans MultiService so that users have the ability to join the meeting service of their choice — BlueJeans, Microsoft Teams, Zoom or Cisco Webex.

### Purpose-Built Internet Appliance

Dolby Voice Huddle runs a hardened purpose-built, Linux-based OS, conforming to enterprise-grade security requirements.

## BlueJeans Rooms-as-a-Service

### Software, hardware, and services in a single package

BlueJeans Rooms-as-a-Service brings together BlueJeans Rooms software, Dolby Voice Room, Dolby Voice Pro or Dolby Voice Huddle hardware, maintenance and support in an all-inclusive monthly price. This subscription service provides a simple way to outfit meeting rooms and huddle spaces with an integrated solution while avoiding time consuming hardware purchase cycles.
