

End User Training

Enable your users to unlock the power of BlueJeans

In order to make the most of your BlueJeans investment, it's essential that your users are fully trained to understand and enjoy all the benefits of BlueJeans. Customers who leverage end-user training tools benefit from smoother deployments and a higher rate of return. From on-demand guides to live instructor-led training, we provide everything you need to set you and your team up for long-lasting success.

Customized End-User Training

BlueJeans custom end-user training program is designed around your business, users, and specific instance and use of BlueJeans. Our team of expert Learning & Enablement Consultants will deliver full end-to-end customized enablement and adoption support. Starting with a training consultation and needs assessment, delivery may include but is not limited to a personalized enablement plan, customized training materials, delivery of virtual instructor led training sessions, and post-training session summary report.

Available for eligible customers upon request.

“BlueJeans training resources were critical in driving the results we wanted to see in ROI.”

- IT Communications Manager, Financial Company

Take BlueJeans to Another Level:

- **Support Community**
Allows users to engage directly with other customers, BlueJeans Support and Product
- **BlueCrew**
Enables users to access helpful content while competing in fun challenges for rewards
