

WHY VIDEO CONFERENCING?

Video conferencing is helping businesses grow through innovation and cost savings.

During an Audio-Only Conference People Multitask

work at least once a week with people they have never seen!

71%

Felt like they've lost a sale or business opportunity due to lack of face-to-face interaction.

Believe that face-to-face connections with colleagues helped build a relationship.

Video conferencing

Agree that video conferencing makes meetings more efficient

Believe it improves clarity and helps them understand the discussion

Would prefer to use video conferencing if it were as easy as using their email or making a phone call

Use video conferencing at least once a week.

Find a Video Conferencing Solution That:
